AskovFonden works with development and the establishment of social contributions for marginalized people. They have eight departments where they offer help and support to more than 2000 people each year. Their vision is to give people the strength and courage to take responsibility and ownership of their lives.

THE CASE

AskovFonden wanted a simpler pay roll for the end user, as well as a system with low maintenance.

THE SOLUTION

a-solutions replaced their existing pay roll system with a system integrated into AX 2012 R2. a-solutions implemented a pay roll system that handled the relative complicated demands at AskovFonden. After the implantation, AskovFonden chose to outsource their entire pay roll system, which to this day is still being handled by a-solutions.
